Reshaping Asian Leadership in a Changing Global Economic Landscape and Climate Change

June 30, 2026 – JW Marriott Hotel, Hong Kong

The 16th Asian Excellence Awards 2026, spotlighting the theme “Reshaping Asian Leadership in a Changing Global Economic Landscape and Climate Change” presented by Corporate Governance Asia, celebrates visionary leaders who are changing the way businesses operate successfully and responsibly across Asia.

At the forefront of this year’s recognition are outstanding Asian women leaders whose strategic insight and innovative thinking represent new leadership in this dynamic region. Furthermore, they are paving the way forward by breaking barriers, inspiring the next generation and demonstrating that gender diversity is key in advancing innovation and long-term growth. By advocating new perspectives and taking bold decisions, they are proving that women’s leadership is crafting the future of Asia and leaving an indelible mark on global business.

Inclusive growth remains a central theme in reshaping Asian leadership. Our distinguished awardees exemplify the ability to create environments where talent from diverse backgrounds can thrive, collaborate and contribute to shared success. By fostering equitable opportunities and promoting diversity, they ensure that economic prosperity is broadly distributed and that businesses grow in harmony with the communities they serve. Leadership in this era is measured not just by financial outcomes, but by the capacity to drive progress that is empowering and sustainable.

At the same time, these remarkable leaders are addressing the pressing realities of climate change by embedding environmental responsibility into every facet of their companies. From championing renewable energy solutions to adopting sustainable operational practices, they are proving that businesses can thrive while actively reducing their ecological impact. Their commitment to climate-conscious strategies inspires peers to recognize that economic growth and environmental stewardship are complementary business objectives.

Beyond immediate action on climate, they also pursue sustainability as a long-term guiding principle, with ethical stewardship and responsible resource management being essential to enduring success. Sustainability being firmly entrenched as a guiding principle ensures that today's growth does not compromise opportunities for future generations and that companies are positioned to thrive in a rapidly changing world.

Embedded within this framework is their steadfast commitment to adhering to ESG principles where ethical governance, transparency and stakeholder engagement form the foundation of their decision-making. These leaders illustrate how aligning business practices with social and environmental priorities enhances organizational resilience, builds reputation and drives lasting value for all stakeholders. By making ESG a core part of strategy rather than simply compliance, they exemplify leadership that balances profit with purpose.

Innovation and technology are central to the way these leaders transform challenges into opportunities. By leveraging digital tools, pioneering creative solutions and implementing forward-thinking strategies, they deftly manage the complexities of a rapidly evolving global economy and forge new pathways for sustainable and inclusive growth. Embracing innovation underscores that leadership in Asia today requires bold vision and a willingness to explore new frontiers while staying grounded in purpose.

The 16th Asian Excellence Awards 2026 celebrate these outstanding leaders and their respective corporates for recreating the leadership narrative in Asia. By empowering women, promoting inclusive growth, advancing sustainability, embedding ESG principles and leveraging innovation and technology, they are defining a new era where progress, responsibility and impact drive a successful company. Their leadership illuminates a path toward a resilient, inclusive and innovation-driven future for Asia, inspiring others to follow in their footsteps and build a legacy that transcends generations.
